### HOW HEALTH IS GAINED

The story of a great deal of the unhappiness of women is a story of lost health. Women wonder how it is that little by little the form loses plumpness, the cheeks grow hollow and sallow, and they feel tired and worn-out all the time. In a large proportion of cases when women are weak, run-down and falling off in flesh and looks, the root of the trouble can be traced to womanly diseases which undermine the general health. The proof of this is that women who have been cured of painful womanly diseases by the use of Dr. Pierce's Favorite Prescription have recovered their general health, gained in flesh and in appearance.

Dr. Pierce's Favorite Prescription cures the womanly diseases which sap the general health. It establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

"I suffered for three years with ovarian trouble," writes Mrs. Anna Quinn (Treasurer Woman's Athletic Club), of Fox Sparrow St., Milwaukee, Wis. "The treatment I took did not do me a particle of good, until a good neighbor who had been using Dr. Pierce's Favorite Prescription advised me to give it a trial. The next day took my first dose, and it was my first step toward recovery. In nine weeks I was a different woman; my flesh which had been flabby became firm, complexion clear and my great change within from pain and suffering to health and happiness."

"Favorite Prescription" makes weak women strong, sick women well. Accept it as a substitute for the medicine which works wonders for weak women.

Dr. Pierce's Pleasant Pellets invigorate stomach, liver and bowels.

United States Causes Alarm.

Some European statesmen seem to be seriously concerned for the economic future of Europe. They see, or fancy they see, deep laid schemes on the part of the United States for absorbing the commerce of Asia, and appear to think the moment has arrived to issue a serious note of warning.

M. Meline, former prime minister and leader of the French protectionists, has sounded the alarm in the *Republique Francaise* of Paris in an article entitled "United States in Asia."

Meline says no mistake should be made in Europe as to the vast designs in the far East on the part of the great republic. It is in that direction that it is evidently turning its commercial ambition. Some day, he says, England may regret having assisted Japan, which he predicts will prefer to throw itself into the arms of the great American republic, which is closer to her and may render her services, rather than to hand over China to British industry, whose rivalry Japan fears.

Finally Meline says one cannot refrain from rather melancholy reflections on the commercial and economic future of old Europe. The more her industry increases, the more her machinery improves, and the more her warehouses become crammed with goods the more restricted and narrow is her expansion abroad. She now finds herself in the presence of a giant with mighty jaws, who is taking away her custom. After having seized a portion, that of Central America, the giant is preparing to deprive her of that of the yellow races, the most important in the world. It is true he consents to leave to Europe the negroes of the Sudan and the vast region of Africa, but until that proves profitable poor Europe will have time to stew in her own juice.

French Girl Kills Many Children.

A young girl of 18, named Jeanne Bonnaud, now detained in the prison of Saint Yrieix, in the Department of Haute Vienne, France, has just confessed to an extraordinary series of infant murders. Some weeks ago two young children named Harbain were found half dead at the bottom of a well in the village of Chatain, and they were only rescued in the nick of time. They said that they had been pushed in by a woman, and from the description they gave Jeanne Bonnaud was subsequently arrested. She protested her innocence, and accused the children's stepmother of the deed, but on Saturday, after making an ineffectual attempt to escape, she asked to be allowed to make a confession. She not only admitted having thrown the Harbain children into the well, but declared that she had also killed their elder sister, aged five, by forcing a potato down her throat; that she killed another child, a little boy, by making him swallow a large stone, and that she was also responsible for the death of two other children, who were found at the bottom of another well some months ago. In addition, she confessed that her own sister, Marguerite, had died from the effects of taking large quantities of paraffin oil administered by her. The girl is to be examined by mental specialists.

A Dismal Outlook. Joseph Chamberlain reopened his fiscal campaign at Luton, Bedfordshire, last night. In his remarks on the fiscal proposition Mr. Chamberlain said it was not a party question, but affected every vital interest of the country.

He dwelt at considerable length on the agricultural situation, and painted a gloomy picture of present conditions, predicting that there is worse to come. He said agriculture had been crippled and land values shrunk by hundreds of millions. The capital of farmers, he said, had fallen \$1,000,000,000. There are 1,000,000 fewer laborers in the country now than there were in 1851, and 13,000,000 people are underfed, while the people of America, Germany and other foreign countries are prosperous and surpassing Great Britain in every line of trade and business. He said that to deny existing conditions was impossible, and to ignore them would be criminal. Alluding to Mr. Balfour's Edinburgh speech, Mr. Chamberlain said he did not want the protection of 50 years ago, but he did want to make foreigners pay toll on shipments to the British market where they competed with British workmen, and unless Great Britain and her colonies worked together there was clothing in sight but disintegration of the empire.

Chamberlain's Cough Remedy. No one who is acquainted with its good qualities can be surprised at the great popularity of Chamberlain's Cough Remedy. It not only cures colds and grip effectually and permanently, but prevents these diseases from resulting in pneumonia. It is also certain cure for croup. Whooping cough is not dangerous when this remedy is given. It contains no opium or other harmful substance and may be given as confidently to a baby as to an adult. It is also pleasant to take. When all of these facts are taken into consideration it is not surprising that people in foreign lands as well as at home, esteem this remedy very highly and very few are willing to take any other after having once used it. ## Danderine

Grew This Hair

AND WE CAN

PROVE IT.

Little Frances Marie Knowlton is the daughter of Dr. E. W. Knowlton, the discoverer of this great hair-growing remedy, and her beautiful hair was grown wholly by the use of this great tonic.

This little girl had no more hair than the average child before using Danderine, while now she has the longest and most beautiful head of golden hair ever possessed by a child of her age in the world.

Danderine makes the scalp healthy and fertile and keeps it so. It is the greatest scalp fertilizer and therefore the greatest hair-producing remedy ever discovered. It is a natural food and a wholesome medicine for both the hair and scalp. Even a 25c. bottle of it will put more genuine life in your hair than a gallon of any other hair tonic ever made.

NOW at all druggists, in three sizes, 25 cents, 50 cents and \$1.00 per bottle.

FREE To show how quickly Danderine acts, we will send a large sample free by return mail to any one who sends this advertisement to the **Knowlton Danderine Co., Chicago**, with name and address and 10 cents in silver or stamps to pay postage.
